

## **CLEAN FUEL & LUBRICANT SOLUTIONS WATER ABSORBING FILTER**

## Donaldson Part No: DBB0248

Fluid Compatibility: Ethanol-free fluids

Free water removal

Donaldson's DBB0248 free water detection filter has been constructed with super absorbent media to remove water efficiently at high flow rates blocking the passage of free water in ethanol free fluids.

Donaldson spin-on elements enable fast, simple and clean servicing, without the requirement of specialised tooling, lifting devices or elevated work platforms. The filter media has greater protection from environmental contamination during service and installation than common cartridge style elements, further enhancing Donaldson's high initial efficiency.

Contaminant loaded media is disposed of with the replaceable can, eliminating the need for manual cleaning of fixed infrastructure or direct handling of concentrated contaminants.

The DBB0248 spin-on elements can be configured for high flow rates with minimal pressure drop.

## **SPECIFICATIONS**

<b>Outer Dimension</b>	117 mm
Length	362 mm
<b>Working Pressure</b>	350 psi / 2413 kPa / 24.1 bar
Maximum Flow Range	246 lpm
Operating Temperature	-40 to 118°C
Media capacity reached at	50 psi dP
<b>Dry Weight</b>	2.3 kg
Liquid Capacity	3.8 L
Media	Super Absorbent Polymer
Seal Type	Viton
Internal Liner	E-coated
<b>Potting Compounds</b>	Ероху

## **DESIGNED FOR USE WITH**

CFLS Single Filter Heads P570329, P570330

CFLS Dual Filter Heads P568583, P574958

CFLS Manifolds P561880, P568932, P568933, DFF1012
