

Donaldson Delivers

Fuel Filter Water Separators for Racor® Fuel Systems

Racor® is a registered trademark of Parker Hannifin Corporation

You've Got Options

Donaldson gives you the most options – choose Twist&Drain or OEM style filters. Durable and rugged, our replacement filters provide the flexibility to choose the system that you prefer.

Choose the Filter that Works for You

Twist&Drain™ Style Fuel Filters

- Easy to service – wide grip drain valve profile
- High performance filtration – performs as well as OE filters
- Self-venting drain – water removal is tool-free
- Accepts existing OEM water-in-fuel (WIF) sensors
- Optional water collection bowl for quick visual water inspection

Global Presence with a Local Touch

At Donaldson, we've built a strong, flexible and responsive distribution network to serve our customers around the world.

Localized Manufacturing – It starts with 30+ manufacturing locations around the world – producing most filters in the regions where they're used.

Primary Distribution Centers – Filters then move to our regional warehouses and distribution center hubs – meaning the filters you need are never far away.

Logistics – We work with a network of transportation and logistics companies, consolidators and cross-docking facilities to deliver products to distribution partners quickly and efficiently.

Distribution Partners – We've built one of the largest, strongest and most responsive distributor networks in the filter industry – meaning you can find the filters and support you need, nearly anywhere in the world.

Donaldson Aftermarket Filter Warranty

YOU HAVE A CHOICE

You can always choose top-quality Donaldson filters designed specifically for your engines and equipment and – as long as you change them according to the engine manufacturer's recommendations – using Donaldson filters **will not** void your engine manufacturer's warranty.
